CLASS NOTES

💼 Module 4 · Business Automation Playbooks

DAY 13 of 25

E-commerce, Finance & Reporting Automation

"Orders, payments, invoices — sab autopilot par."

⚡ AAJ HUM YEH BANAYENGE

Payment Webhook → GST Invoice → Email + Finance Sheet

Razorpay se "payment.captured" webhook aata hai → GST ke saath HTML invoice banta hai → customer ko email → finance sheet mein entry. Har order par 30+ minute ka kaam zero.

Shopify | WooCommerce | Razorpay | Stripe

Naam: _____ Class date: _____

2 ghante ki live class · 7:00 PM – 9:00 PM IST

🧭 Aaj ka roadmap

Ek nazar mein poori class — kya, kyun aur kitne time mein.

💡 Yeh lesson kyun zaroori hai?

Paisa jahan hai, wahan automation ki demand sabse zyada — orders, payments, invoices, reports.

🎯 Aaj ke baad aap yeh kar paoge

01 Shopify/WooCommerce order workflows

🌍 Dukaan mein order aaya → packing → delivery boy.
⚙️ Shopify Trigger (orders/create) → Sheet + WhatsApp confirmation.

02 Payments: Razorpay & Stripe webhooks

🌍 Paisa aate hi "ting" ki awaaz (UPI speaker).
⚙️ Razorpay webhook payment.captured → verify signature → aage badho.

03 Auto-invoice PDF generation

🌍 Kacchi parchi ki jagah printed bill.
⚙️ HTML template → PDF (Gotenberg/API) → Gmail attachment.

04 Inventory alerts & supplier emails

🌍 Ration khatam hone se pehle mummy list banati hain.
⚙️ Schedule daily → stock < 5 → supplier ko email.

05 Daily/weekly KPI reports (Sheets → charts → email)

🌍 Report card har mahine.
⚙️ Schedule Mon 9am → Sheets se sum → chart URL → email.

06 Abandoned cart recovery

🌍 Customer trolley chhod ke chala gaya — yaad dilao.
⚙️ Checkout created, order nahi → Wait 1h → WhatsApp coupon.

⏱ Class ka plan (2 ghante)

10m	30m	50m	20m	10m

0:00-0:10 Recap

🪄 *Cricket match se pehle warm-up karte ho na? Recap dimaag ka warm-up hai.*

0:10-0:40 Concept: Ops Automation

🪄 *Jaise hi tum piggy bank mein sikka daalte ho, ek robot diary mein likh deta hai kitne paise ho gaye — tumhe ginna nahi padta.*

0:40-1:30 Live Build

Razorpay payment → invoice PDF → email → accounting sheet

🪄 *Aaj ki kahani yaad hai — 'Kiraana dukaan ka smart galla'? Ab wahi kahani n8n mein banayenge. Har scene ek node hai: ek-ek block jodo aur har block ke baad dekho sab chal raha hai ya nahi.*

1:30-1:50 Quiz + Challenge

Module 4 quiz

🪄 *Practice match — jitna yahan girenge, utna asli match mein kam girenge.*

1:50-2:00 Q&A + Homework

🪄 *Ghar jaane se pehle bag check — sab samajh aaya? Homework diary mein likha?*

🧠 Concepts — aasaan bhasha mein

Har concept ke saath ek real-life analogy. Analogy yaad rahegi to concept bhi yaad rahega.

CONCEPT 01

Payment webhook

Razorpay/Stripe payment success par n8n ko event bhejte hain.

🪄 **Analogy:** Bank ka SMS alert

CONCEPT 02

Signature verification

Event asli gateway se aaya hai — HMAC se check.

🪄 **Analogy:** Note ka watermark check

CONCEPT 03

PDF invoice

HTML template → PDF (API/Gotenberg) → email.

🪄 **Analogy:** Printed bill

CONCEPT 04

KPI report

Daily numbers: sales, orders, AOV.

🪄 **Analogy:** Dukaan ka roz ka hisaab

🔑 Aaj ka main idea

Ops automation = business ke roz ke repeat kaam (orders, payments, invoices, stock, reports) ko event ke saath jod dena. Paisa aaya → baaki sab apne aap.

- Shopify order → WhatsApp confirmation + packing slip
- Razorpay payment → GST invoice → accountant ko copy
- Har Monday subah sales report email

📖 Ek kahani se samjho: Kiraana dukaan ka smart galla

1 💳 **Customer ne UPI se pay kiya**
= Razorpay webhook

2 🧾 **Bill apne aap chhapa**
= Invoice PDF node

3 📩 **Customer ko bill mila**
= Gmail send

4 📒 **Hisaab ki kitaab update**
= Google Sheets append

5 📦 **Stock kam? Supplier ko call**
= IF stock < 5 → email

🪄 Ek line mein: “Jaise hi tum piggy bank mein sikka daalte ho, ek robot diary mein likh deta hai kitne paise ho gaye — tumhe ginna nahi padta.”

🗺️ Aaj ka workflow: Payment Webhook → GST Invoice → Email + Finance Sheet

Data left se right chalta hai. Har dabba ek n8n node hai.

💰 Isse kitna kama sakte ho?

E-commerce / D2C brands (payment → invoice) — aam taur par **₹15,000 – ₹40,000**. *(Andaaza hai; client aur scope ke hisaab se badalta hai.)*

🛠 Step-by-step build — n8n kholo aur saath chalo

1 ⚡ **Webhook**
Razorpay payment.captured event

2 🔐 **Crypto**
HMAC-SHA256 signature verify

3 👩‍💻 **Code**
GST breakup + invoice number

4 📄 **HTML**
Invoice HTML template

5 🌐 **HTTP Request**
HTML → PDF conversion API

6 📧 **Gmail**
Customer ko PDF attach

7 📊 **Google Sheets**
Finance sheet entry

✅ Har step ke baad **Execute step** dabao aur output check karo. Sab green ho to workflow **Active** karo.

AdifySkills DIGITAL MARKETING INSTITUTE +91 83838 91716

🔑 Setup (import ke baad)

- [ ] Connect: **Gmail (Google OAuth)**
- [ ] Connect: **Google Sheets (Google OAuth)**
- [ ] Razorpay Dashboard → Settings → Webhooks → URL = production webhook URL, event = payment.captured
- [ ] Production mein webhook signature (X-Razorpay-Signature) verify karna mat bhoolna
- [ ] "Payments" tab headers: payment_id, email, phone, total, taxable, gst, invoice_no, date

✅ Test kaise karein

1. Webhook "Listen for test event" → neeche wala sample body curl se bhejo
2. Email mein invoice aur sheet mein row check karo

⚖️ Pehle vs Ab — farak dekho

Yahi farak client ko dikhana hai. Time bachta hai = paisa bachta hai.

😩 Pehle (manual)

Payment check karna	10 min
Invoice banana	15 min
Email karna + sheet update	10 min
	35 min

⚡ Ab (n8n)

Webhook se sab auto	1 min
	1 min

⏱ Har order par ~34 minute bache. 30 orders/din = 17 ghante/din!

⌨️ Aaj ka key snippet

Copy karke n8n mein paste karo — 📋 Select karke copy karo

```
{{ $json.payload.payment.entity.amount / 100 }}  // paise → rupees
```

📦 Sample data — input se output tak

📥 Input — 📋 Select karke copy karo

```
{
  "event": "payment.captured",
  "payload": {
    "payment": {
      "entity": {
        "amount": 999900,
        "email": "student@mail.com"
      }
    }
  }
}
```

📤 Output — 📋 Select karke copy karo

```
{
  "invoice": "INV-261203-17",
  "amount": 9999,
  "gst": 1525.27,
  "emailed": true
}
```

💬 Copy-paste prompts

ChatGPT / Claude mein seedha paste karo. PDF mein text select karke copy ho jata hai.

💬 Build it with ChatGPT / Claude

📋 Select karke copy karo

```
Act as an n8n expert and teacher. Help me build this workflow in n8n step by step (n8n 1.x UI):

Goal: Razorpay se "payment.captured" webhook aata hai → GST ke saath HTML invoice banta hai → customer ko email → finance sheet mein entry. Har order par 30+ minute ka kaam zero.

Flow: Webhook (Razorpay event) → IF (payment.captured?) → Edit Fields (Amount + GST) → Code (HTML invoice) → Gmail + Sheets (Customer + finance)

For each node tell me: which node to add, exact settings, and the expressions to use. Then tell me how to test it and the 3 most common errors beginners hit.
```

💬 Debug helper prompt

📋 Select karke copy karo

```
I'm building the n8n workflow "Payment Webhook → GST Invoice → Email + Finance Sheet" (nodes: Razorpay Webhook, Captured?, Invoice Fields, HTML Invoice, Email Invoice, Finance Sheet).
Node "<NODE NAME>" gives this error:
<PASTE ERROR>

Input JSON of that node:
<PASTE INPUT>

Explain the cause in simple words and give me the exact fix (settings or expression).
```

📥 Workflow ko n8n mein kaise laayein

1. **Workflow JSON** wale button par click karo (ya lesson page par 📋 **Copy workflow JSON** dabao).
2. Poora text copy karo (`Ctrl` + `A` , `Ctrl` + `C`).
3. n8n mein naya workflow kholo → canvas par click → `Ctrl` + `V` . Ya … menu → *Import from File*.
4. Upar wala Setup checklist poora karo aur **Test** dabao.

⚡ Workflow JSON
6 nodes · ready to import

Atak gaye? Yeh check karo

Error aana seekhne ka hissa hai — sab atakte hain. Neeche wale points se 90% problems solve ho jaati hain.

Agar yeh ho raha hai…	To yeh karo
Node par laal ⚠️ triangle?	Account connect nahi hua. Node kholo → Credential → "Gmail (Google OAuth)" connect karo.
Node par laal ⚠️ triangle?	Account connect nahi hua. Node kholo → Credential → "Google Sheets (Google OAuth)" connect karo.
Webhook/Form test par kuch nahi ho raha?	"Listen for test event" / Test URL use karo aur 2 minute ke andar request bhejo. Production URL sirf Active workflow par chalta hai.
"Sheet not found" / column khaali?	Sheet ID aur tab ka naam (capital/small bhi) check karo. Pehli row mein headers hone chahiye.

⚠️ Yeh galtiyan sabse common hain

- ! Paise ko rupees samajhna (amount/100)
- ! Signature verify skip karna
- ! Same payment event par do invoices (idempotency)

⭐ Pro tips — time bachane wali tricks

- ★ Payment ID se Remove Duplicates — webhook retry par double invoice nahi
- ★ Invoice number sequence DB/Sheet se lo
- ★ Daily KPI ko chart image (QuickChart) ke saath bhejo

Phir bhi atke? Koi baat nahi 🙂
Screenshot + error message ke saath WhatsApp par poochho →

Practice + Challenge

Padhne se zyada banane se seekhte hain. Ek-ek level upar jaao.

🛠 Live lab

Payment success webhook → GST invoice PDF → customer email → finance sheet update.

📝 Homework

Daily sales KPI report jo har raat 10 baje owner ko WhatsApp par aaye.

- ☐ Homework ho gaya

BEGINNER
Woo order → Telegram alert ☐

INTERMEDIATE
Low stock alert to supplier ☐

ADVANCED
Abandoned cart 3-step recovery ☐

🧩 Aaj ka challenge — pehle khud try karo

🎯 Payment ₹10,000 se upar ho to owner ko Telegram par "Big order! 🎉" alert bhi jaaye.

💡 **Hint 1**
HTML Invoice ke baad ek aur branch bana sakte ho.

💡 **Hint 2**
IF {{ $json.total }} > 10000 → Telegram.

✅ Solution aakhri page par hai — pehle 5 minute khud socho 😉

🎯 2 minute ka self-check

Sahi option par gol ghera lagao. Answers aakhri page par — score sirf aapke liye hai.

Q1. Razorpay amount 999900 = ?

(A) ₹9999
(B) ₹99.99
(C) ₹99990
(D) ₹999900

Q2. Webhook asli hai, kaise check?

(A) HMAC signature
(B) IP guess
(C) Email
(D) Kuch nahi

Q3. Double invoice se bachne ke liye?

(A) Limit
(B) Remove Duplicates by payment ID
(C) Wait
(D) Sort

Q4. JSON → Excel file?

(A) HTML
(B) XML
(C) Convert to File
(D) Extract from File

📖 Aaj ke naye shabd

Webhook
Ek URL jis par koi doosra app data bhejta hai aur aapka workflow turant chal padta hai.

API
Do apps ke baat karne ka tareeka. Ek app sawaal bhejta hai, doosra jawab (data) deta hai.

HTTP Request
Node jo kisi bhi API ko call kar sakta hai — n8n ka universal connector.

✍️ Meri notes

Class mein jo naya laga, jo doubt aaya — yahan likho. Kal revise karna aasaan hoga.

⏭ Kal kya seekhenge — Day 14

AI in n8n: LLMs & Prompt Engineering

"Workflows ko dimaag do — AI ke saath."

☐ **Day 13 complete! 🎉**

Tick karo aur website par bhi ✅ dabao.

🔑 Answer key + useful links

Pehle khud try kiya? Ab check karo. Galat hua to explanation padho — wahi asli seekh hai.

Q1 → A
₹9999
Amount paise mein hota hai.

Q2 → A
HMAC signature

Q3 → B
Remove Duplicates by payment ID

Q4 → C
Convert to File

✅ Challenge ka solution

HTML Invoice → IF (total > 10000) → Telegram "🎉 Big order ₹{{ $json.total }} from {{ $json.email }}".
