n8n Automation Mastery

MENTOR COPY

🧭 Module 1 · Automation Foundations

DAY 01 of 25

Automation Mindset & Welcome to n8n

“Aaj aap apna pehla workflow live chalaoge — sirf 2 ghante mein.”

⚡ AAJ HUM YEH BANAYENGE

Daily Quote Mailer

Har subah 8 baje internet se ek motivational quote laata hai aur aapko email kar deta hai. Pehla real automation — trigger, API, data set karna aur email.

n8n Cloud | Schedule Trigger | HTTP Request | Gmail

Naam: _____ Class date: _____

2 ghante ki live class · 7:00 PM – 9:00 PM IST

🧭 Aaj ka roadmap

Ek nazar mein poori class — kya, kyun aur kitne time mein.

💡 Yeh lesson kyun zaroori hai?

Automation ka asli matlab hai: jo kaam aap roz same tareeke se karte ho, woh computer khud kare. Aaj student ko "aha moment" milna chahiye — ek workflow jo khud chalta hai.

🎯 Aaj ke baad aap yeh kar paoge

01 Automation kya hai & businesses kyun pay karte hain

🌍 Ek coaching owner roz 2 ghante students ko fee reminder WhatsApp karta hai — yahi kaam automation 0 minute mein karta hai, isliye businesses pay karte hain.
⚙️ Schedule Trigger + Google Sheets + WhatsApp: har mahine 5 tareekh ko pending fees walon ko reminder.

02 n8n vs Zapier vs Make — kab kya use karein

🌍 Zapier = ready-made tiffin (easy, mehenga), Make = restaurant thali (visual), n8n = apni kitchen (thodi mehnat, poora control, sasta).
⚙️ Simple 2-step zap → Zapier theek; AI agent + 20 steps + self-host → n8n.

03 n8n Cloud account setup + local install (npx)

🌍 Cloud = rent ka ghar (turant shift), self-host = apna ghar (setup lagta hai, par kiraya nahi).
⚙️ n8n.io par trial account ya terminal mein: npx n8n → localhost:5678

04 Editor tour: canvas, nodes, connections, executions

🌍 Canvas ek whiteboard hai, nodes us par chipke sticky notes, connections unke beech ki lines.
⚙️ Canvas par "+" dabao → node add, drag karke connect, "Executions" tab mein history.

05 Trigger vs action nodes

🌍 Doorbell (trigger) bajti hai → aap darwaza kholte ho (action).
⚙️ Schedule Trigger (trigger) → Gmail "Send" (action).

06 Pehla workflow: Schedule → HTTP → Email

🌍 Subah ka akhbaar: hawker roz 6 baje (schedule) laata hai (HTTP), darwaze par daal deta hai (email).
⚙️ Schedule Trigger → HTTP Request (quote API) → Gmail.

⏱️ Class ka plan (2 ghante)

15m | 30m | 45m | 20m | 10m

`0:00-0:15` **Kickoff & Orientation**

Course roadmap, community join, tools checklist

🪄 Jaise school ke pehle din pata chalta hai saal bhar kya padhenge aur bag mein kya laana hai. Bag = tools, syllabus = roadmap.

👩‍🏫 Ice-breaker karwao: har student apna ek repeat kaam bataye. Tools checklist live check karo aur jinka account nahi bana unki list banao. Community group ka link chat mein bhejo.

`0:15-0:45` **Concept: Automation Thinking**

Process mapping — trigger, steps, output

🪄 Beta, subah alarm bajta hai to tum uthte ho, brush karte ho, nahate ho, school jaate ho. Alarm = trigger, baaki sab = steps. Agar ek robot yeh sab tumhare liye kar de — wahi automation hai.

👩‍🏫 Pehle real-life example se shuru karo, phir n8n screen dikhao. Har concept ke baad 1 student se apne shabdon mein dobara bulwao.

0:45–1:30 **Live Build**

Daily motivational quote email workflow

🪄 *Aaj ki kahani yaad hai — 'Gaadi aur automation — same soch'? Ab wahi kahani n8n mein banayenge. Har scene ek node hai: ek-ek block jodo aur har block ke baad dekho sab chal raha hai ya nahi.*

👩‍🏫 Har 10 minute par poocho "sabka green tick aaya?". Jaan-boojh ke ek galti live hone do aur use debug karke dikhao.

1:30–1:50 **Your Turn**

Workflow ko apne naam/email ke saath customize karo

🪄 *Board par drawing ban gayi, ab apni copy mein apne rang bharo.*

👩‍🏫 Ghoom-ghoom ke (ya breakout rooms mein) dekho. Jo jaldi khatam kare use Advanced level do; jo atke unhe ready JSON se start karwao.

1:50–2:00 **Q&A + Homework**

Doubts, homework brief

🪄 *Ghar jaane se pehle bag check — sab samajh aaya? Homework diary mein likha?*

👩‍🏫 Chat se top 3 doubts live solve karo. Homework ka pehla step class mein hi karwa do, taaki koi blank na baithe.

🧠 Concepts — aasaan bhasha mein

Har concept ke saath ek real-life analogy. Analogy yaad rahegi to concept bhi yaad rahega.

CONCEPT 01

Workflow

Nodes ki ek chain jo ek kaam poora karti hai. Jaise recipe — steps ek ke baad ek.

🪄 **Analogy:** Chai banana: paani → patti → doodh → cheeni = workflow

CONCEPT 02

Trigger vs Action

Trigger batata hai KAB chalna hai, actions batate hain KYA karna hai.

🪄 **Analogy:** Alarm (trigger) bajta hai → aap uthte ho (action)

CONCEPT 03

Execution

Workflow ka ek run. Har execution ka log n8n save karta hai.

🪄 **Analogy:** Bank statement ki ek entry

CONCEPT 04

Cloud vs Self-hosted

n8n Cloud = ready-made, monthly fee. Self-hosted = apna server, unlimited, thoda setup.

🪄 **Analogy:** Rent ka ghar vs apna ghar

🔑 Aaj ka main idea

Automation thinking ka matlab hai har kaam ko 3 hisson mein todna: KAB shuru hota hai (trigger), KYA-KYA steps hote hain (actions), aur END mein kya milta hai (output). Jo kaam roz same tareeke se hota hai, woh automate ho sakta hai.

- Washing machine: button dabaya (trigger) → paani, wash, rinse, spin (actions) → saaf kapde (output)
- School bell: 8 baje (trigger) → ghanti bajti hai (action) → class shuru (output)
- Dukaan: customer ne UPI kiya (trigger) → "₹500 received" bolne wala speaker (action)

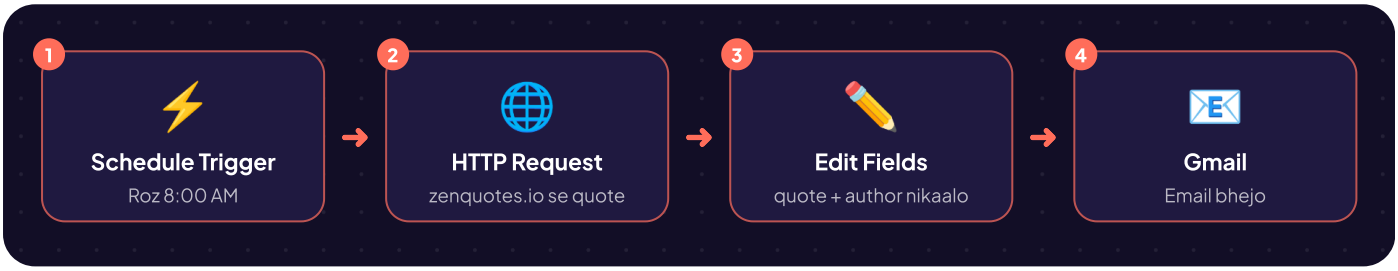

📖 Ek kahani se samjho: Gaadi aur automation — same soch

1	2	3	4	5
🔑	⚙️	🛣️	🚦	🏁
Chaabi ghumayi	**Engine chalu hua**	**Gaadi road par chali**	**Signal laal hai? Ruk jao**	**Manzil par pahunche**
= Trigger (kab shuru ho)	= Action node	= Data flow (connections)	= IF node (decision)	= Output (email/message)

🪄 Ek line mein: “Beta, subah alarm bajta hai to tum uthte ho, brush karte ho, nahate ho, school jaate ho. Alarm = trigger, baaki sab = steps. Agar ek robot yeh sab tumhare liye kar de — wahi automation hai.”

🗺️ Aaj ka workflow: Daily Quote Mailer

Data left se right chalta hai. Har dabba ek n8n node hai.

💰 Isse kitna kama sakte ho?

Coaches, schools, gyms (daily motivation / tips email) — aam taur par **₹2,000 – ₹5,000 setup**. *(Andaaza hai; client aur scope ke hisaab se badalta hai.)*

🛠 Step-by-step build — n8n kholo aur saath chalo

1 ⚡ **Schedule Trigger**
Trigger Interval: Days, Hour: 8 — roz subah 8 baje

2 🌐 **HTTP Request**
GET https://zenquotes.io/api/random — free quote API

3 ✏️ **Edit Fields (Set)**
quote = {{ $json[0].q }}, author = {{ $json[0].a }}

4 📧 **Gmail**
To: apna email, Subject: "Aaj ka quote ☀️", Message: quote + author

✅ Har step ke baad **Execute step** dabao aur output check karo. Sab green ho to workflow **Active** karo.

🔑 Setup (import ke baad)

- [ ] Connect: **Gmail (Google OAuth)**
- [ ] Gmail node mein "your-email@gmail.com" ki jagah apna email likho

✅ Test kaise karein

1. Workflow open karke "Test workflow" dabao
2. Inbox check karo — quote aaya?
3. Sab theek ho to upar "Active" toggle on karo

⚖️ Pehle vs Ab — farak dekho

Yahi farak client ko dikhana hai. Time bachta hai = paisa bachta hai.

😩 Pehle (manual)

Roz quote website kholna	5 min
Quote copy karna	2 min
Gmail kholke email likhna	5 min
Bhejna aur yaad rakhna kal bhi karna hai	3 min
	15 min

➜

⚡ Ab (n8n)

n8n khud 8 baje chalta hai	
Quote fetch + email automatic	
Aap sirf inbox mein padhte ho	1 min
	1 min

⏱ Roz 15 minute → 1 minute. Saal mein ~85 ghante bache.

⌨️ Aaj ka key snippet

Copy karke n8n mein paste karo — 📋 Select karke copy karo

```
{{ $json[0].q }} — {{ $json[0].a }}
```

📦 Sample data — input se output tak

📥 Input — 📋 Select karke copy karo

```
[
  {
    "q": "The best way to get started is to quit talking and begin doing.",
    "a": "Walt Disney"
  }
]
```

📤 Output — 📋 Select karke copy karo

```
{
  "quote": "The best way to get started is to quit talking and begin doing.",
  "author": "Walt Disney",
  "sent": true
}
```

💬 Copy-paste prompts

ChatGPT / Claude mein seedha paste karo. PDF mein text select karke copy ho jata hai.

💬 Build it with ChatGPT / Claude

📋 Select karke copy karo

```
Act as an n8n expert and teacher. Help me build this workflow in n8n step by step (n8n 1.x UI):

Goal: Har subah 8 baje internet se ek motivational quote laata hai aur aapko email kar deta hai. Pehla real automation — trigger, API, data set karna aur email.

Flow: Schedule Trigger (Roz 8:00 AM) → HTTP Request (zenquotes.io se quote) → Edit Fields (quote + author nikaalo) → Gmail (Email bhejo)

For each node tell me: which node to add, exact settings, and the expressions to use. Then tell me how to test it and the 3 most common errors beginners hit.
```

💬 Debug helper prompt

📋 Select karke copy karo

```
I'm building the n8n workflow "Daily Quote Mailer" (nodes: Every Day 8 AM, Get Random Quote, Pick Quote + Author, Send Quote Email).
Node "<NODE NAME>" gives this error:
<PASTE ERROR>

Input JSON of that node:
<PASTE INPUT>

Explain the cause in simple words and give me the exact fix (settings or expression).
```

📥 Workflow ko n8n mein kaise laayein

1. **QR scan karo** ya link kholo — workflow ki JSON file khulegi.
2. Poora text copy karo (`Ctrl` + `A` , `Ctrl` + `C`).
3. n8n mein naya workflow kholo → canvas par click → `Ctrl` + `V` . Ya … menu → *Import from File*.
4. Upar wala Setup checklist poora karo aur **Test** dabao.

⚡ Workflow JSON
4 nodes · ready to import
`adifyskills.com/workflows/day-01-daily-quote-mailer.json`

🌐 Lesson page
Copy buttons, quiz aur video links
`adifyskills.com/day/1`

Atak gaye? Yeh check karo

Error aana seekhne ka hissa hai — sab atakte hain. Neeche wale points se 90% problems solve ho jaati hain.

Agar yeh ho raha hai…	To yeh karo
Node par laal ⚠️ triangle?	Account connect nahi hua. Node kholo → Credential → "Gmail (Google OAuth)" connect karo.
Time par apne aap nahi chala?	"Active" toggle on hai? Settings mein timezone Asia/Kolkata check karo.

⚠️ Yeh galtiyan sabse common hain

- ! Workflow ko "Active" karna bhool jaana — tab Schedule chalega hi nahi
- ! Test URL aur production run mein confusion
- ! Gmail credential mein galat Google account select karna

⭐ Pro tips — time bachane wali tricks

- ★ Har node ke baad "Execute step" dabake output check karo
- ★ Workflow ka naam clear rakho: "Daily - Quote Mailer"
- ★ Sticky note se workflow ka purpose likho

Phir bhi atke? Koi baat nahi 🙂
Screenshot + error message ke saath WhatsApp par poochho →

Practice + Challenge

Padhne se zyada banane se seekhte hain. Ek-ek level upar jaao.

🛠 Live lab

Daily Quote Mailer — har subah 8 baje ek quote API se fetch karke email bhejna.

📝 Homework

Apne kaam/business ke 5 repetitive tasks list karo aur unka trigger-action map banao.

- ☐ Homework ho gaya

BEGINNER
Quote ki jagah daily joke API use karo
☐

INTERMEDIATE
Email ke saath Telegram par bhi bhejo
☐

ADVANCED
Sirf weekdays (Mon–Fri) par chalao using cron expression
☐

🧩 Aaj ka challenge — pehle khud try karo

🎯 Quote email sirf Monday se Friday subah 8 baje aaye, weekend par nahi.

💡 Hint 1
Schedule Trigger mein "Days" ki jagah "Custom (Cron)" mode dekho.

💡 Hint 2
Cron mein 5 hisse hote hain: minute hour day month weekday. Weekday 1-5 = Mon-Fri.

✅ Solution aakhri page par hai — pehle 5 minute khud socho 😉

🎯 2 minute ka self-check

Sahi option par gol ghera lagao. Answers aakhri page par — score sirf aapke liye hai.

Q1. Workflow kab start hoga, yeh kaun decide karta hai?

- (A) Trigger node
- (B) Credential
- (C) Sticky note
- (D) Action node

Q2. Schedule Trigger ke liye workflow ko kya karna zaroori hai?

- (A) Delete
- (B) Duplicate
- (C) Activate (publish)
- (D) Export

Q3. n8n ka self-hosted version kaisa hai?

- (A) Sirf Windows
- (B) Sirf paid
- (C) Free Community Edition available
- (D) Sirf mobile

Q4. Ek workflow run ko kya kehte hain?

- (A) Node
- (B) Pin
- (C) Execution
- (D) Credential

📖 Aaj ke naye shabd

Workflow
Steps ki ek chain jo apne aap chalti hai — jaise recipe ke steps.

Trigger
Jo workflow ko START karta hai — jaise alarm, naya email, ya form submit.

API
Do apps ke baat karne ka tareeka. Ek app sawaal bhejta hai, doosra jawab (data) deta hai.

JSON
Data likhne ka format: { "naam": "Ravi", "city": "Delhi" } — key aur value ke jode.

Execution
Workflow ka ek baar chalna. Har run ka record Executions tab mein dikhta hai.

HTTP Request
Node jo kisi bhi API ko call kar sakta hai — n8n ka universal connector.

Schedule
Fixed time par workflow chalana — roz, har ghante, har Monday.

👨‍🏫 Mentor notes — class kaise lein

Yeh page sirf aapki copy mein hai. Students ki PDF mein nahi jaata.

- [ ] Class shuru karo ek real story se: "ek coaching owner jo roz 2 ghante WhatsApp follow-up karta tha"
- [ ] Pehle 10 min mein hi workflow chala ke dikhao — theory baad mein
- [ ] Students se unke 5 repetitive tasks chat mein likhwao
- [ ] End mein har student ka email aana chahiye — screenshot share karwao

🗣️ Har block ke liye mentor tip

15m — Kickoff & Orientation

Ice-breaker karwao: har student apna ek repeat kaam bataye. Tools checklist live check karo aur jinka account nahi bana unki list banao. Community group ka link chat mein bhejo.

Class se poochho: Aapka roz ka sabse boring repeat kaam kaunsa hai? · n8n account ban gaya? (Nahi bana to Day 0 page dekho.) · Course ke end tak aap kaunsa ek automation banana chahte ho?

30m — Concept: Automation Thinking

Pehle real-life example se shuru karo, phir n8n screen dikhao. Har concept ke baad 1 student se apne shabdon mein dobara bulwao.

Class se poochho: Aapke ghar mein kaunsi cheez already automatic hai? · Aapke kaam ka kaunsa task roz same tareeke se hota hai? · Us task ka trigger kya hai?

45m — Live Build

Har 10 minute par poocho "sabka green tick aaya?". Jaan-boojh ke ek galti live hone do aur use debug karke dikhao.

Class se poochho: Is node ka output agle node mein kaise ja raha hai? · Agar yeh node fail ho to kya hoga? · Isko apne kaam/business mein kahan use kar sakte ho?

20m — Your Turn

Ghoom-ghoom ke (ya breakout rooms mein) dekho. Jo jaldi khatam kare use Advanced level do; jo atke unhe ready JSON se start karwao.

Class se poochho: Aapne kya customize kiya? · Kahan atke? · Kisi dost ko yeh workflow kaise samjhaoge?

10m — Q&A + Homework

Chat se top 3 doubts live solve karo. Homework ka pehla step class mein hi karwa do, taaki koi blank na baithe.

Class se poochho: Aaj ka sabse useful node kaunsa laga? · Homework mein pehla step kya hoga? · Aaj ki class 1 line mein summarize karo.

✍️ Meri notes

Class mein jo naya laga, jo doubt aaya — yahan likho. Kal revise karna aasaan hoga.

⏭ Kal kya seekhenge — Day 2

Triggers, Nodes & Executions Deep-Dive

"Workflow kab start ho — yeh control aapke haath mein."

☐ **Day 1 complete! 🎉**

Tick karo aur website par bhi ✅ dabao.

🔑 Answer key + useful links

Pehle khud try kiya? Ab check karo. Galat hua to explanation padho — wahi asli seekh hai.

Q1 → A
Trigger node
Trigger node hi workflow ko start karta hai.

Q2 → C
Activate (publish)
Inactive workflow automatic nahi chalta.

Q3 → C
Free Community Edition available
Community Edition self-host karne ke liye free hai.

Q4 → C
Execution
Har run = ek execution.

✅ Challenge ka solution

Schedule Trigger → Trigger interval: Custom (Cron) → Expression: 0 8 * * 1-5
